

INSTRUCTION OF MOUNTING THE BALLOON

1

After unpacking put the balloon on the ground.

2

Connect the plug to the mains.

3

Remember not to cover extractor fan.

4

Hide the rest of cables inside the balloon. Close the zip on the bottom of balloon.

5

Wait a moment until the balloon will fill with air.

6

Stabilize the balloon with lines and tent-pegs.

7

Hammer the tent-pegs into the ground.

8

By the guy lines you can regulate the balloon vertically.
