### INSTRUCTION OF MOUNTING THE WINDYMAN

1

Unfold the Windyman and put the ventilator on the ground.

2

Put the Windyman on the ventilator fasten it to the ventilator (use the hook and loop and the end of the Windyman).

3

Use the strings on the Windyman's head and arms to regulate flexibility.

4

Plug the ventilator.

The packaged Windyman can not be wet!  
Do not keep the Windyman in a temperature higher than the room temperature,  
as secondary sublimation may occur (reflection of the graphic).
